and a disturbing fuse of apparatus and machinery - a desperate Hitler's last ghastly ploy to escape defeat.

We like it because:

Frankenstein's Army is the next generation Nazi horror shocker. Abstaining from the time-honoured traditions of the typical found-footage horror, director Richard Raaphorst delivers a story that is the most fear-inducing and visually conquering horror of its kind since the nerve-jangling "Dead Snow". With a truly disturbing character design reminiscent of Del Toro, Frankenstein's Army firmly puts its own remarkable stamp on the horror warfare genre!
