avoid the same fate Lisa and her family have suffered.

Also starring Stephen McHattie (Watchmen, 300), Peter Outerbridge (Saw VI, Silent Hill: Revelation 3D) and David Hewlett (Splice), "Haunter" is a chilling supernatural horror with a twist.

We like it because:

"Haunter" offers an unusual, refreshing perspective on the traditional ghost story with captivating results! An entertaining amalgam of "The Others", "The Conjuring" and "Groundhog Day", cult director Vincenzo Natali is back on top form with this tightly-wound paranormal horror that utilises the best elements of the subgenre to great effect. Featuring a standout performance from up and comer Abigail Breslin that keeps the tension alive, further lifted by the spine-chilling Stephen McHattie as their venomous killer, "Haunter" is the must-see addition to your horror collection!
