Synopsis:

When tragedy rocks Blackfoot High, rebellious outsider Maddy Killian shocks the student body by joining the cheerleading squad. This decision drives a rift between Maddy and her ex- girlfriend Leena Miller - a loner who claims to practice the dark arts. After a confrontation with the football team, Maddy and her new cheerleader friends are sent on a supernatural roller coaster ride which leaves a path of destruction none of them may be able to escape.

We like it because:

All Cheerleaders Die is a fresh and modern piece of contemporary filmmaking that begs to be watched. Blending great visual style with an extraordinary amount of wit, this is the film that ushers in a terrifying new age of horror that raises the stakes with pom poms, high kicks and a thirst for blood.

Clueless, Heathers, Mean Girls, The Faculty and Scream - All Cheerleaders Die reminded us of the greats and does enough to push its way to the front of the pack with real pep!
