## **Synopsis:**

After earning the title of Top Dog and achieving her murderous revenge, Bea Smith returns to TV's most legendary prison. Now serving life without parole in the toughest cell block, surely there's nothing worse that can happen to Queen Bea...

Joan Ferguson continues to live up to her new nickname of 'The Freak', willing to sacrifice anything and blackmail anyone to achieve her twisted desires, with her iconic black leather gloves. Meanwhile the tension between her officers are at their most strained as Fletch returns, Will is accused of a brutal murder and Vera is about to reach breaking point.

With Maxine acting as Bea's henchwoman, and Boomer feeling her vengeful wrath, Franky's life hangs in the balance. Liz is at an all time low with her troubled relationship with her daughter, Jess' dark side is slowly revealing itself and Doreen's pregnancy could prove to be disastrous.

Culminating in one of TV's most shocking finales, this series will have you gripped to the screen with every episode... and many characters won't make it out alive to tell the tale.

## **We Like It Because:**

Forget Orange Is The New Black, and step into the confines of Wentworth Prison. Taking the UK by storm (frequently trending in the UK), new and old fans have fallen in love with the intense new series. A prison where the officers are as twisted as the inmates and where murder, deceit and blackmail lies around every dark corner. OITNB is out, Wentworth is in.
