### Synopsis

*The Vampire Diaries* continues its sixth season with more delicious drama to sink your teeth into. In season five, after a passionate summer with Damon, Elena headed to Whitmore College with Caroline, not knowing Bonnie sacrificed her life for Jeremy's. Meanwhile, Stefan and Caroline's friendship deepened as they stood up to the Travelers, a nomadic witch tribe driven to strip Mystic Falls of magic and cast out its supernatural residents. In the shocking season finale, Damon, fearing he would lose his loved ones on the crumbling Other Side, made a huge sacrifice to bring them all back — with catastrophic and heartbreaking results. Season six

follows the characters' journey back to each other as they explore the duality of good versus evil inside themselves. Matt Davis reprises his role as Alaric Saltzman, recently returned from The Other Side. Plus, the season will make you misty-eyed as the departure of a major character will turn lives upside down and leave us asking what happened to Mystic Falls.
