Alienate

First contact could be our last!

On DVD from Monday 22nd Feb. 2016.

Fast sell:

With big action and even bigger ideas, Alienate is stacked from start to finish with thrilling suspense that will have you dusting off your copies of Independence Day and X-Files to ask yourself the all time important question, do you believe...?

Alienate continues in the footsteps of modern sci-fi action classics Monsters and Cloverfield to explore exciting new territory for the genre.

Key talent:

Starring

Blake Webb (The Divergent Series: Allegiant, American Horror Story)

Tatum Langton (Grey's Anatomy)

Directed by

Michael Shumway (feature film directorial debut)

Synopsis:

David leaves home for a business trip. When aeroplanes start mysteriously falling out of the sky and cell towers fail, he finds himself trapped. With the Earth falling to an alien invasion, David fights to return to whatever is left of his home and marriage.

We like it because:

Blending the suspense of Monsters with the intelligent action assault of Independence Day, Alienate is a unique modern genre must-see that firmly places debut feature director
