Cult horror director Eli Roth presents

# The Green Inferno

**In selected cinemas on 12 February, Digital HD on 15 February and DVD and Blu-ray on 22 February**

Master of horror, Eli Roth (*Aftershock*, *Hostel*, *Cabin Fever*) brings his trademark brand of twisted gore to the screen once again with new shock cannibal film *THE GREEN INFERNO*, which will be released in selected cinemas on 12 February this year.

The film tells the tale of a group of student activists from New York who travel to South America on a trip of a lifetime to help save a tribe in danger of extinction. Disaster strikes when the plane they are travelling in crashes into the Amazon jungle and they are taken hostage by the natives that they had intended to protect. The group face a harrowing struggle to escape the tribe they've been brutally captured by, witnessing the ritualistic murders of their friends and eventually turning on each other in order to survive.

*THE GREEN INFERNO* is Roth's first directorial feature since 2007's *Hostel: Part Two* and stars Lorenza Izzo (*Aftershock*), Daryl Sabara (*John Carter*, *Halloween*, *Spy Kids*), Ariel Levy (*Aftershock*), Kirby Bliss Blanton (*Project X*, *Scar*) and Sky Ferreira. Based on a script co-written with Guillermo Amodio (*Aftershock*), and produced by Molly Connors (*Killer Joe*, *Welcome to the Punch*), *THE GREEN INFERNO* is one of the most anticipated horror films of 2016.
