grown men awake at night... the one they call Long John Silver. But as Flint, Silver and their allies are about to learn, the closer civilization comes to defeat, the more desperately and destructively it will fight back. Oaths will be shattered, fortunes will change hands, and amidst the chaos, only one thing remains certain: it has never been more dangerous to call oneself a pirate...

We like it because:

“Good men are not what the moment requires”

Death, destruction and disorder, vengeance and brutality - being a pirate is not for the faint-hearted! This big budget, epic series, set during the 18th century 'Golden Age of Piracy', builds to a worthy and climax in this, the fourth and final season of the hit show from Hollywood powerhouse Michael Bay.

The ten episodes in Season 4 deliver high seas adventure and intrigue, a dash of romance, exotic locations, thrilling spectacle, huge fight scenes, and superbly drawn characters. Toby Stephens, starring as Captain Flint, positively relishes his role as the ruthless pirate attempting to bring down civilisation; he is joined by top British thespians Rupert Penry-Jones (Whitechapel) and Harriet Walter (Star Wars: The Force Awakens), and Australian actor Luke Arnold (magnificent here as Long John Silver).

With jaw-droppingly choreographed set pieces, incredible effects, hundreds of extras, painstakingly recreated ships, this has the violent, gripping intensity of Game Of Thrones, and is much darker and more true to life than the Pirates Of The Caribbean films. BLACK SAILS: SEASON 4 is an audacious and fitting end to one of the most ambitious and exciting shows of recent years.
