## Fast Sell:

Chaos has won, and evil runs amok in AMERICAN HORROR STORY: APOCALYPSE, the most terrifying and ambitious series yet of the hit anthology horror drama series, created by Ryan Murphy and Brad Falchuk. Season Eight takes place after a devastating nuclear war - the perfect setting for all manner of madness and malevolence. Emmy-winner Sarah Paulson, Oscar-winner Kathy Bates, Emma Roberts and Cody Fern return for more blood-soaked mayhem.

## Synopsis:

After the nuclear apocalypse, the world's chosen elite survive in secure Outposts created by the mysterious Cooperative. On the American West Coast, Ms. Wilhemina Venable (Sarah Paulson) and Ms. Miriam Mead (Kathy Bates) run Outpost Three with an iron fist. The unexpected arrival of Michael Langdon (Cody Fern), a Cooperative representative determined to save society with a secret paradise, throws their order into chaos. However underneath the surface of humanity's salvation lies a battlefield for the final conflict between good and evil.

## We like it because:

Vividly gothic and utterly spine-chilling, AMERICAN HORROR STORY: APOCALYPSE is packed with extraordinary terrors and blackly comic visions of hell on Earth, including Satanic cults, cannibals roaming a nuclear wasteland, voodoo spells, and a return of the truly ghoulish Rubber Man. Fans of the show will gobble it up. Newcomers beware - nightmares are guaranteed!

**AMERICAN HORROR STORY: 1984 premieres on FOX on 19th September at 10pm.**
